DESCRIPTION:	

OPEN RECRUITMENT Open Until Filled

This is a **position specific** recruitment. The resulting list of eligible candidates will be used to fill this Maryland Transportation Authority (MDTA) position/function only. All interested persons will need to re-apply for any future recruitment conducted of this classification.

The Maryland Transportation Authority (MDTA) owns, operates, and maintains eight major toll facilities comprised of four bridges, two tunnels, and two turnpikes, across the State of Maryland. For over 50 years, the MDTA has provided Maryland's citizens and visitors with safe, secure and convenient transportation facilities. We are committed to quality and excellence in customer service, and we rely on our organization's values, traditions and – most importantly – our employees to achieve these goals.

Nature of Work: The Environmental Manager performs managerial and administrative work in the environmental sciences and resource management protection. The employee supervises major, complex, and innovative projects in researching, analyzing, and evaluating projects' environmental or socio-economic impact, making recommendations to minimize and mitigate environmental impact, and designing restoration and mitigation projects. This position manages units responsible for programs designed to prevent, identify, and mitigate impacts to the environment related to the operation and maintenance of transportation systems and facilities, and to achieve, maintain, and document compliance with all environmental laws and regulations applicable to the multi-media operations of those systems and facilities.

Employees in this position will report directly to the Deputy Director of the Office of Environment, Safety, Risk Management & Asset Control and Damage Recovery. **The current vacancy exists in Baltimore, Maryland.** Hybrid telework schedules may be available for this position.

MDTA employees are offered a generous benefits package including: a minimum of 11 paid holidays, a minimum of 27* days of leave annually (personal, vacation, and sick), access to the State Pension System, deferred compensation plans, excellent health, dental, and vision plans, and more! *May be prorated based upon start date.

Qualifications:

MINIMUM QUALIFICATIONS:

Education: Possession of a Bachelor's degree from an accredited college or university in natural sciences, earth science, physical science, environmental science, chemistry, physics, biology, agronomy, forestry, horticulture or related sciences, geography, environmental planning, civil engineering, sociology, economics, planning, anthropology, architectural history, or related fields such as ecology, landscape architecture, or environmental engineering.

Experience: Seven years of experience in environmental analysis to include the development of plans, specifications, estimates and design, OR seven years' experience in environmental management to include the development, implementation, and monitoring of environmental compliance plans for air quality, storm water management, wastewater treatment, hazardous waste management, pollution prevention, solid waste management or multi-media operations. One year of the experience must have involved functioning as a team leader or overseeing the work of consultants or contractors in an environmental area.

Notes:

1. Possession of a Master's degree in one of the disciplines required may be substituted for one year of the required non-supervisory experience.
2. Possession of a Doctorate's degree in one of the disciplines required may be substituted for two years of the required non-supervisory experience.
3. U.S. Armed Forces military service experience as defined under the Minimum Qualifications may be substituted for the required experience on a year-for-year basis.

Licenses & Certifications

Employees in this classification will be assigned duties which require the operation of a motor vehicle. Employees will be required to possess a motor vehicle operator's license valid in the State of Maryland. **Applicants must list the license number and date of expiration on the application.**
